PREMIUM HARD SURFACE PRODUCTS FOR DYE SUBLIMATION

COASTERS

OUTDOOR PRINT MEDIA

TABLE TOPS

WELCOME TO THE WORLD OF CHROMALUXE AND
UNISUB, PREMIUM BRANDS FOR HIGH DEFINITION
SUBLIMATION PRINTING.

It is with great pleasure that I can present you our 2021 catalogue.
We have decided to bundle both brands in a single document, for
efficiency and ecology reasons.
I hope you will find this a useful document for easy referencing.

In these challenging times with an unseen impact on humanity, our
team worked hard to improve existing products and to develop new
products for you.

The introduction of our unique textured coating is one of our new
product highlights. This structured finish is available on aluminium
ChromaLuxe photo panels, but also on small Unisub household
items like coasters and placemats. Make sure to request your sam-
ples, in case you haven't seen these yet.

Universal Woods remains 100% committed to providing you the resources, tools and support to further
grow your sublimation business.

Our goal: to offer you the best quality sublimation products made anywhere in the world. We appreciate
the confidence you have in our products and work hard to deserve this trust you put in us.
Quality, variety and value are key factors in our daily work.

In order to offer you the best service possible, we continuously add content to www.starttosublimite.com:
a technical portal providing you with how-to-videos, answers to frequently asked questions, setup
information for printer and press, production tips & tricks and much more. Make sure to discover it if you
haven't already, and register for free.

All of the sublimatable products in this catalogue are coated in an environmentally friendly manner in
our ISO certified facility in Louisville, Kentucky, U.S.A. Our products are now sold in over 90 countries
worldwide. We have a global support team on 4 continents to help serve customer needs around the
world. Wherever you are, we have distribution partners to support you.

The opportunities for your business to grow with sublimation are countless, and we are excited and
thankful to be a part of your growth. We will have fewer opportunities to meet in person, but surely
technology enables us to interact in virtual meetings and events. Let's make sure to use these. Staying
connected is a key element of doing business together.

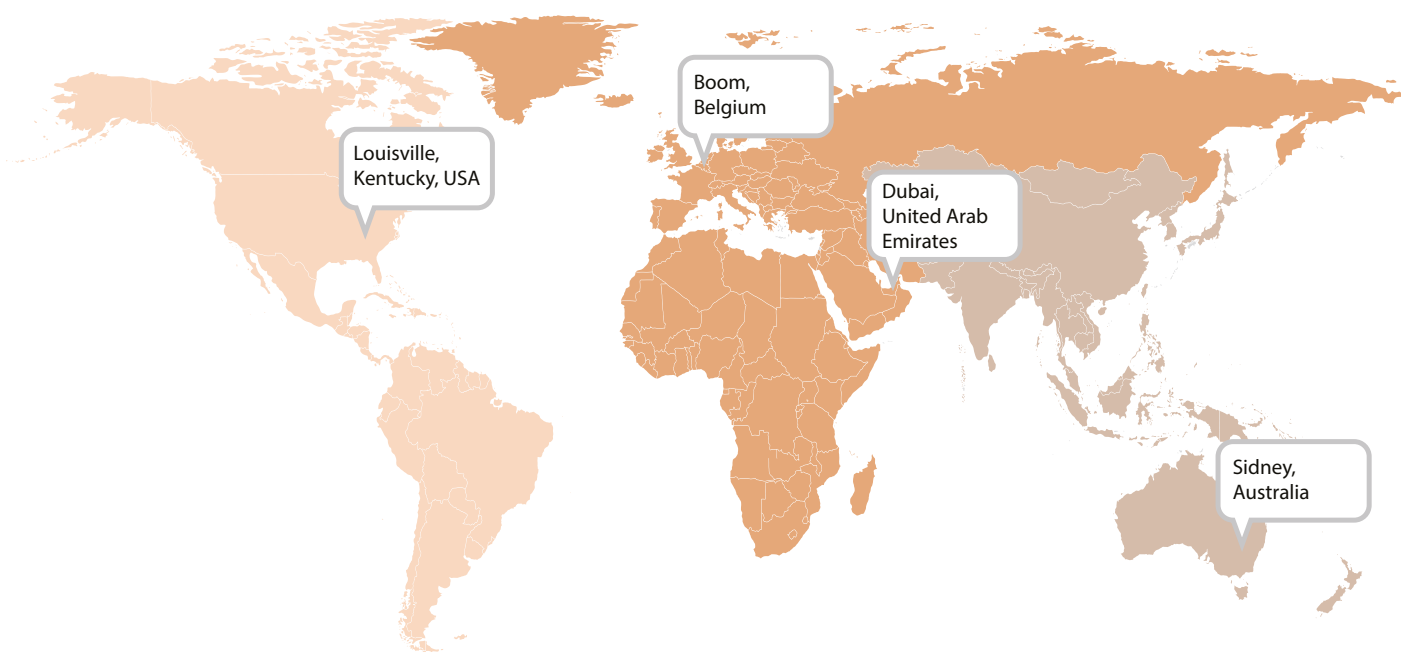

On behalf of our entire UW team, I wish you safety, good health, and a sustainable business.
Together we look forward to better times and continued growth.

Kind regards,
Erik Wiegman,
Managing Director Universal Woods EMEA

ABOUT US

Universal Woods is the world's leading manufacturer of hard surface print media for sublimation printing. Headquartered in Louisville, KY, Universal Woods proudly manufactures products for its premium brands Unisub and ChromaLuxe, and currently exports goods to over 90 countries. Thanks to its branches in the USA, Belgium, Australia, and a logistics hub in Dubai, Universal Woods has market access across the globe. From the EMEA office, in Boom Belgium, the company serves Europe, Middle East, Africa, South-Korea and Japan, with a firm commitment to a strong customer focus, leadership, involvement of people, process approach, system approach to management, continual improvement, fact-based decision making and mutually beneficial supplier relationships.

SUBLIMATION PRINTING

SCIENCE ON HARD SURFACES

You may have learned in chemistry that sublimation involves a substance that changes from a solid to a gas and then back to a solid without ever becoming a liquid. In the hard surface sublimation industry, an image is printed onto transfer paper using dye-based inks and then transferred onto a specially-coated surface with heat and pressure. We manufacture bare products with a specialised formulated coating, and you sublimate any image onto those products. Getting started with sublimation on your own is easy! All you need is a computer, a printer with sublimation inks, transfer paper, a heat press and your Unisub and ChromaLuxe products.

PRINT

Print finished artwork with sublimation paper and ink. Then, tape the print to the front of the substrate.

PRESS

Place image down and press in the heat press.

PRESENT

No need for lamination, once sublimated, Unisub and ChromaLuxe items are ready to sell.

3 simple steps to sublimate

1

Choose any picture, illustration or other graphic image. Sublimation is great for any colour combination from black and white to full colour.

2

Insert the special sublimation ink cartridges into your printer. Print the image onto sublimation transfer paper designed for hard surface products. Tape the transfer paper to your product.

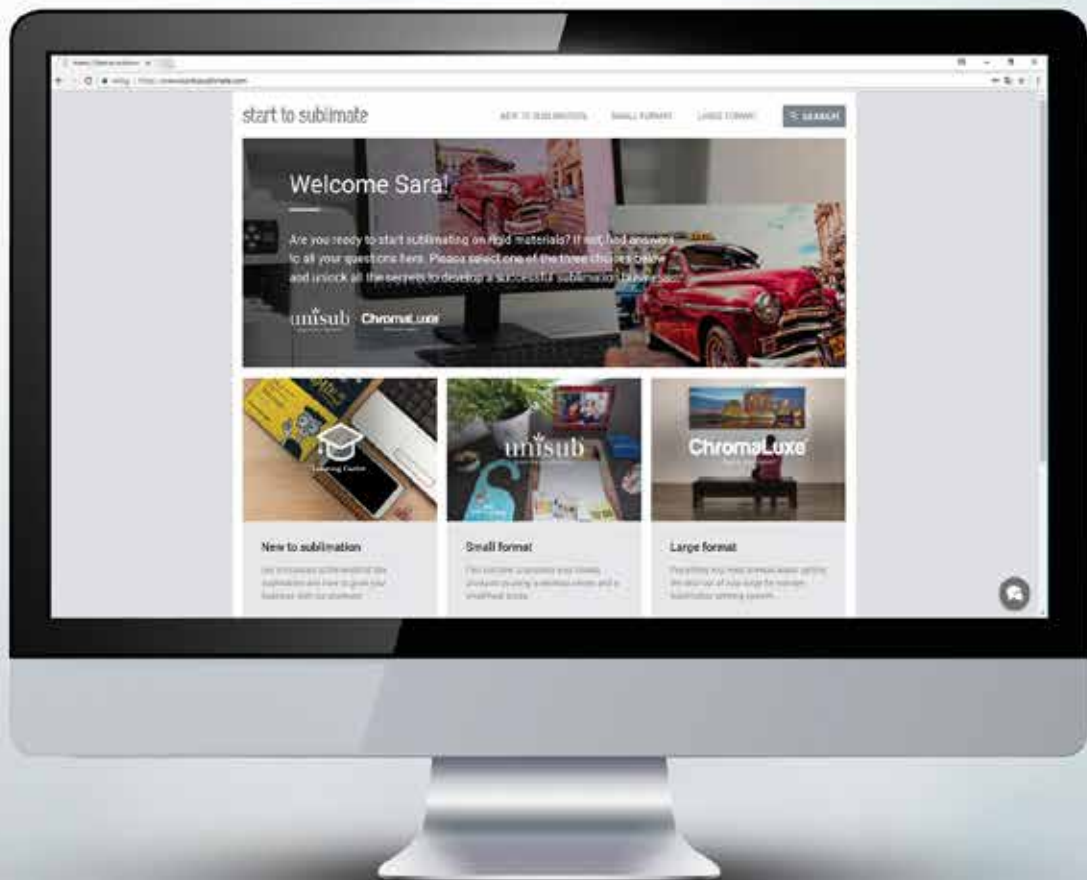

3

Position your product on the heat press face up and apply pressure for the appropriate amount of time. Remove the transfer paper from the surface. Enjoy the WOW factor!

SUBSTRATES

Universal Woods coats a variety of hard substrates including aluminium, MDF, hardboard and more. As an ISO 9001:2015 certified manufacturer, our products are manufactured and inspected to ensure the highest quality sublimatable products in the industry.

ALUMINIUM

Used in: Ornaments, metal prints, name tags, key chains, and more

Finishes: Gloss White, Semi-Gloss White, Matte White, Gloss Clear, Semi-Gloss Clear, Matte Clear, Textured

Thicknesses: 1.14 mm / 0.045" and 0.76 mm / 0.03"

NATURAL WOOD, MDF WITH MAPLE VENEER FINISH

Used in: Wood photo panels, picture frames, bag tags, ornaments and more

Finish: Matte Clear

Thickness: 15.88 mm / 0.625" and 3.9 mm / 0.156"

HARDBOARD (HB)

Used in: Desktop photo easel panels and hinged panel set, picture frames, signs of life, puzzles, coasters, serving trays, and more

Finish: Gloss White, Textured, Semi-Gloss White

Thickness: 6.35 mm / 0.25" and 3.18 mm / 0.125"

STEEL

Used in: Message boards and signage

Finish: Gloss White

Thickness: 0.58 mm / 0.023"

MEDIUM DENSITY FIBERBOARD (MDF)

Used in: Wood photo panels, plaques, picture frames, and more

Finishes: Gloss White, Semi-Gloss White, Textured

Thicknesses: 15.8 mm / 0.625" and 12.7 mm / 0.5"

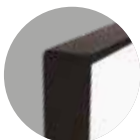

FIBERGLASS REINFORCED PLASTIC (FRP)

Used in: Name badges, magnets, bag tags, and more

Finishes: Gloss White, Matte White

Thickness: 2.29 mm / 0.09"

MOISTURE RESISTANT MEDIUM DENSITY FIBERBOARD (MR-MDF)

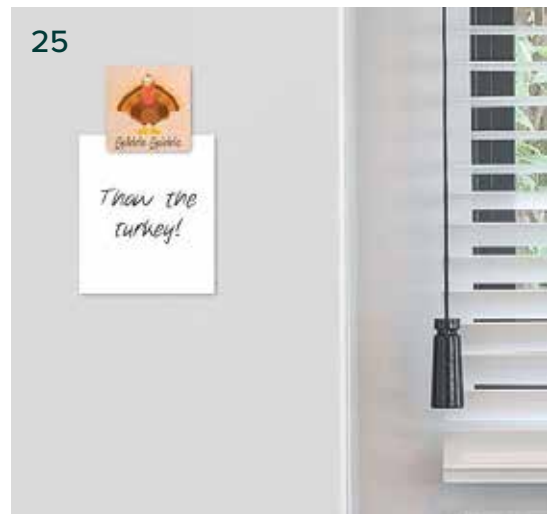

Used in: Table tops

Finish: Semi-Gloss White

Thickness: 19.05 mm / 0.75"

SIGNAGE, EXTERIOR

From garden stakes to building signs, Unisub's exterior sign products are made with a UV resistant coating and are perfect for outdoor marking, lawn décor, advertisements, building numbers and more. Choose from a variety of sizes, with stakes included for yard signs and garden stakes, and holes for hanging or mounting building signs. Building signs do not include mounting or hanging hardware.

Visit www.unisub.com for updated warranty information.

For more outdoor signage & material, see information in the ChromaLuxe section.

BUILDING SIGNS

Material: EXT AL **Finish:** Gloss White **Thickness:** 1.4 mm / 0.045"

item #	description	dimensions mm/in	QTY
4792	Building Sign - Rectangle Small	127 x 304.8 mm / 5" x 12"	10
4793	Building Sign - Oval	127 x 304.8 mm / 5" x 12"	10
4794	Building Sign - Rectangle Large	203.2 x 406.4 mm / 8" x 16"	10
4795	Building Sign - Decorative	292.1 x 387.4 mm / 11.5" x 15.25"	10
4796	Building Sign - Bunting	254 x 304.8 mm / 10" x 12"	10

Mounting: Building signs do not include hardware. Holes are 6.35mm diameter and will accommodate #8 concrete screws and concrete anchors. Use a masonry bit to drill pilot holes for the concrete anchors; install anchors and use #8 concrete screws to attach the sign to the wall.

Hanging: Use ribbon, twine, or cable to create a hanging effect on a door or exterior wall. Thread the ribbon through the holes, tie a secure knot and hang on a nail or screw.

CHROMALUXE EXT EXTENDED LIFE METAL PRINTS

ChromaLuxe EXT gives users the ability to take prints outdoors, or into direct sunlight with the image quality and durability they've come to expect from other ChromaLuxe products. These UV resistant panels come in a variety of common sizes to serve the signage, display and outdoor photography markets.

Features and Benefits:

- Image quality, depth and colour
- Consistent high gloss finish
- Weathers well
- Easy to clean
- Graffiti resistant
- Chemical resistant
- Scratch resistant
- Impact resistant
- Wind resistant
- No need to laminate
- Thoroughly tested

5903	Shadow display black Suggested maximum aluminium panel size: 406 x 508 mm / 16" x 20"	228.6 x 304.8 mm / 9" x 12"	10
5904	Shadow display black Suggested maximum aluminium panel size: 610 x 660 mm / 24" x 26"	295.3 x 406.4 mm / 11.625" x 16"	10

MDF display blocks come with pre-applied adhesive and keyhole.

For the best appearance, we recommend using aluminium framing for panels larger than 610 x 660 mm / 24" x 26".

CONNECTIONS HANGING SYSTEM FOR HD METAL PRINTS

ChromaLuxe Connections offer gallery quality wall art that is easy to mount using the Connections Hanging System and a few basic tools. Pair multiple ChromaLuxe metal prints together creating a collage of images or use one image across the entire series. Use the jig, graph paper and hanging mount to easily display ChromaLuxe Connections in any home, office or gallery space.

Connections are not sold as a kit.
Find more configurations for Connection arrangements online at Unisub.com

Sub Frames for **ChromaLuxe** Panels

What does a Sub Frame do?

- Floats the panel away from the wall
- Provides a way to hang the panel on the wall
- Gives the panel a substance and rigidity
- Push in corners shaped to prevent damage to the panel if it flexes in transit
- Bonds to the back of the panel with Heavy Duty Bonding Tape
